ABOUT ME

Tri-lingual and tri-cultural designer with a deep interest in visual communication, modes of interaction, and product design. Raised in the U.S., Mexico, Argentina, and Holland, and traveled extensively in Greece and the Basque Country. Constantly adapting easily to new countries and people, while embracing change. My overarching approach to design is to balance visual appeal with user-centered solutions. For product design I add to that a focus on unique colors and textures, humorous and/or original perspectives, and the inclusion of cultural/geographical details.
